A proposito della CELC, l'autorità federativa della filiera agroindustriale del lino nel mondo

La Confederazione Europea del Lino e della Canapa (CELC) è l'unica organizzazione europea agroindustriale che riunisce e consolida tutti gli stadi della produzione e trasformazione del lino & della canapa. Fondata nel 1951, la CELC è l'interlocutore privilegiato di 10.000 aziende situate in 14 paesi dell'U.E., esperte della fibra dalla pianta fino al prodotto finito.

Unica organizzazione europea di riferimento, la CELC promuove il dialogo con le istituzioni pubbliche nazionali ed europee.

Luogo di riflessione e di analisi congiunturale, di concertazione e di orientamento strategico, la CELC anima una filiera di eccellenza in un contesto globalizzato.

Una missione garantita da EUROPEAN FLAX®, marchio di tracciabilità del lino fibra di qualità premium, coltivato in Europa Occidentale per tutti suoi impieghi, le cui tappe di trasformazione sono controllate dall'organismo indipendente di certificazione leader [Bureau VERITAS]. Una tracciabilità che, quando è il risultato di un 100% Made in Europe, prende il marchio di MASTERS OF LINEN®, marchio depositato e club di eccellenza di filatori, tessitori, maglifici ed editori europei.

La CELC crea l'ambiente favorevole alla competitività delle imprese industriali, grazie ad una triplice azione di informazione, protezione e promozione. Una strategia multicanale che figura su scala internazionale stimolando l'innovazione e si affida alle performance delle fibre naturali dalle qualità ambientali riconosciute. Un insieme di azioni attive, prodotte e promosse dalla sua piattaforma dedicata CELC Développement.

About CELC, The federating authority of the flax/linen agroindustry in the world

The European Confederation of Flax and Hemp (CELC) is the only European agro-industrial organisation federating all the stages of production and transformation of flax and hemp. Founded in 1951, It is the privileged spokesperson for 10,000 European enterprises across 14 countries, overseeing fibre development from plant to finished product.

The only European organisation of reference, CELC encourages dialogue with national and European public authorities.

As a think tank and place of market analysis, dialogue and strategic orientation, CELC presides over an industry of excellence in a globalised context.

This mission is guaranteed by EUROPEAN FLAX®, the traceability label for all applications of premium-quality flax fibre grown in Western Europe with each stage of its transformation and processing audited by the leading independent certification body [Bureau VERITAS]. This traceability, when combined with 100% Made in Europe transformation, is given the label MASTERS OF LINEN®, a registered trademark and a club of excellence for European spinners, weavers, knitters and éditeurs.

CELC creates an environment conducive to industrial enterprise competitiveness following a three-pronged approach comprising information, defence and promotion. This internationally-focused multichannel strategy stimulates innovation and builds on the performance of natural fibres with proven environmental qualities. A corpus of actions facilitated, produced and promoted by its dedicated platform CELC Développement.
